SUBJECT: Operational Memorandum #03-07
Modification to the list of USDA-approved Nutrient Analysis Software

This is to inform you of a recent change to the list of USDA-approved Nutrient Standard Menu Planning (NSMP) and School Meals Initiative (SMI) nutrient analysis software available to meet SMI requirements. Meal Tracker Menu Planning (formerly Simple Menu Planning) from Accu-Scan Division has met the USDA requirements for use in conducting nutrient analyses for NSMP and SMI requirements for the 2007-2008 school year. The USDA-approved status for Meal Tracker Menu Planning has been restored, because the software was updated to include the most recent Child Nutrition Database Release 10.

The current list of USDA-approved software programs, that once again includes Meal Tracker Menu Planning, can be found at:
